

### **Instructions for signing your Will**

1. Get two adults together with you at the same time. Make sure these adults are **not named** in your Will. Make sure they are not your husband/wife/partner/son/daughter/executor or beneficiary.
2. Using a dark blue or black pen, in front of the witnesses, you sign your Will at the bottom of each page and then on the last page where it says your name. Use your normal signature to do this.
3. Using the same dark blue or black pen, your two witnesses also sign at the bottom of each page and then on the last page where it says 'witness'.
4. Your witnesses need to write their full names, occupations and addresses underneath their signatures.
5. Make sure the Will is dated.
6. Any corrections made in hand to the Will should be initialled by you and your witnesses.

**Please note:** The above instructions and the creation of your Will do not constitute legal advice on our part. You are solely responsible for the creation of your Will. However, please feel free to contact us on 1300 MY LAWFIRM or email us if you do require legal advice about your document.
